

CARLOS CATIVO

DEVELOPER

 San Salvador

EDUCATION

High School

Colegio Externado de San José, Bachillerato General 2013.

University

Universidad de El Salvador, currently in the fifth year of the Computer Systems Engineering degree.

Language

Centro Cultural Salvadoreño, complete training in the English language, 2015.

Certification

Computer course for Microsoft products and technologies, MTA 98-361 "Software Development Fundamentals".

Others:

Complementary Training Program in Design, Programming, Art and Marketing of Video Games PIXELS CAPS.

EXPERIENCE

Mussol Apps & Media (March 2018 – Present)

Currently I am part of the development team, I have been responsible for creating about 60 (and counting) websites for the company TripXpertz, with dynamic content, integration and creation of APIs using technologies such as Laravel, MySQL, Redis, AWS (CI/CD, EC2, S3, Cloudfront and RDS), among others. I am also in charge of the development of video games such as Stellar Hunter and Unstoppable Kittens using Unity.

Chamba Conoce la LAIP (Freelance) (November 2017 – November 2018)

I was part of the development team of "Chamba conoce la LAIP", a game developed for the Institute of Access to Public Information.

Tin Marin Children's Museum (2013)

As part of the high school social service I was a volunteer guide for 10 months, in which I learned about teamwork and doing everything with passion.
